APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Two & 1/10 cubic feet per second. (2.1)

Actual construction work shall begin on or before April 29, 1917.

Proof of commencement of work shall be filed before May 29, 1917.

Work must be prosecuted with reasonable diligence and be completed on or before October 29, 1918.

Application of water to beneficial use shall be made on or before April 29, 1922. Proof of the application of water to beneficial use must be filed with State Engineer on or before May 29, 1922.

Map filed APR 25 1917.

Proof of labor filed APR 26 1917.

WITNESS MY HAND AND SEAL this 29th day

of September, 1916.

Proof of completion of work filed OCT -9 1918

Cancelled June 12 - 1924 because of failure of applicant to comply with provisions of permit

State Engineer.

Robert A. Allen

State Engineer

permit is issued subject to all prior rights on the stream system of which this source is a tributary and is for water only during the period of flood flow of Cold Creek, the waters of said creek combining with the waters of the source herein described to serve prior rights lower on the stream. As a strict provision of this permit, it is expressly understood that diversion of water from the source described herein shall be ceased immediately upon notification from the State Engineer that the combined flow of the sources above mentioned is needed for rights lower on the stream system. Water is allowed herein for 210 acres of land only, that being the maximum amount of land which is susceptible of irrigation according to an investigation and report made in connection with the application.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.
